

# RUBESH. S

React Full Stack Developer

@ srubesh204@gmail.com

Chennai

## SUMMARY

A skilled and motivated Full Stack Developer with experience in React, JavaScript, and MongoDB. Committed to delivering high-quality results and working collaboratively in a friendly and dynamic environment.

## EXPERIENCE

### Junior Software Engineer

#### Metric Measurement Technologies

2022 - 2023 Chennai, Ambattur.

##### Certificate Software:

Worked on the development of a browser-based application using React and JavaScript resulting in a 20% increase in user engagement. Collaborated with cross-functional teams to ensure timely delivery of project milestones.

- Developed new features and enhancements for the application using React and JavaScript.
- Collaborated with cross-functional teams to ensure timely delivery of project milestones.
- Debugged and resolved application issues to improve user experience.
- Customization and Flexibility: Designed the uncertainty calculation feature to be highly customizable, allowing users to tailor the calculation parameters, models, and algorithms to their specific calibration requirements. This flexibility empowers users to optimize uncertainty analyses based on their unique scenarios and preferences.

### Senior Software Engineer

#### Metric Measurement Technologies

2023 - Present Chennai, Ambattur.

##### Calibration Software:

As the Team Lead for the Software Division, I spearheaded the development of a highly customizable software solution, leading a team of 3 developers. This project showcased my ability to not only contribute technically but also provide leadership and guidance to ensure project success.

- Leadership and Mentorship: Directed and mentored a team of 3 developers throughout the entire project lifecycle, providing guidance, support, and feedback to foster their professional growth and development.
- Project Management: Developed and executed project plans, assigning tasks, setting deadlines, and monitoring progress to ensure timely delivery of high-quality software. Implemented Agile methodologies to streamline development processes and enhance team collaboration.
- Backend Development: Utilized NodeJS and Express to architect and develop the backend infrastructure, including database management, server-side logic, and API integration.
- Frontend Development: Employed React and React Functionalities to design and implement the frontend components, including UI components, interactive features, and client-side scripting.
- Database Management: Implemented MongoDB to manage and manipulate data efficiently, ensuring optimal performance and scalability.
- Project Management: Demonstrated strong project management skills by effectively planning, organizing, and executing the development process, resulting in the successful completion of the project within the specified timeline.

## EDUCATION

### Bachelor of Engineering in Computer Science

#### Aalim Muhammed Salegh College of Engineering

2018 - 2022 Chennai, Avadi

## STRENGTHS

#### Problem-solving skills

Solved complex coding problems using React resulting in faster application performance.

#### Team player

Collaborated with cross-functional teams to develop and deliver high-quality products.

#### Attention to detail

Ensured code quality and accuracy through rigorous testing and review processes.

## SKILLS

React	JavaScript	MongoDB	API
NodeJS	Express	MUI	
HTML AND CSS			

## ACHIEVEMENTS

#### Leading a cross-functional team

Successfully led a team of developers to deliver a complex web application on time and within budget.

#### Most Punctual Student

Received an award for 100% attendance each year.
